Shaykh Muḥyuddīn ʿAbd al-Qādir al-Jīlānī

O Allah, send prayers upon our master Muhammad, whose light preceded creation and whose appearance is a mercy to all the worlds, equal to the number of those of Your creation who have passed away, those who remain, those among them who are fortunate, and those who are wretched. Send prayers that encompass every number and every limit, prayers that have neither limit nor end nor cessation, everlasting by Your everlastingness. And send prayers upon his Family and his Companions, and grant peace in like measure.

O Allah, send prayers, peace, blessings, and honour upon our master and patron Muhammad, whose light preceded creation and whose appearance is a mercy to all the worlds, equal to the number of those of Your creation who have passed away, those who remain, those among them who are fortunate, and those who are wretched. Send prayers that encompass every number and every limit, prayers that have neither end nor conclusion, neither term nor cessation. They are the very prayers which You sent upon him, everlasting by Your everlastingness, enduring by Your permanence, with no limit short of Your knowledge. And send them likewise upon his Family and his Companions. All praise belongs to Allah for that.
